

## How to Find Out Who Have Not Completed an Item?

9/1/2009

Please make the following selections in the order of 1-9 as illustrated below.

#4, you may choose *Enrolled Students* instead, which will filter out non-student users in the class such as other instructors, teaching assistants, etc.

#6, you can choose any item you are interested in, such as a quiz or a discussion forum.

#7, this option must be checked to show the results.

#8, you can choose the *Chart* view, but the *Table* view makes more sense.

**Report Settings** Saved Reports

**Choose Report**

Category: WhoDunIt **2** Report: Item Completion **3** User(s): All Users **4**

**Configure Report** **5** [\[-\] Collapse](#)

List users that have not **5** completed Survey - One **6**

**7** Include data for deleted submissions

Select report view: Table **8**

**9** Run Print Preview Send Report Export Save

**WhoDunIt Item Completion**

users: All Users

List users that have not completed Survey - One word to describe programming.

\*\*\*\*\* Include data for deleted submissions
